 Protocol No. 7 January 29, 2026

## 1. Scope of Application

1.1 This Regulation establishes the system for ranking the performance of the faculty and teaching staff (hereinafter – FTS) of the Kazakh National Academy of Arts named after Temirbek Zhurgenov (hereinafter – the Academy). The system is aimed at analyzing, stimulating, and developing the educational, scientific, creative, organizational-methodological, pedagogical, career guidance, and other professional activities of the FTS to improve the quality of education, enhance the efficiency of the educational process, and strengthen the Academy’s reputation.

1.2 This Regulation has been developed in accordance with the legislation of the Republic of Kazakhstan in the field of education, the Charter of the Academy, and the Academy’s internal regulatory acts governing educational, scientific, creative activities, and the procedures for material incentives for employees.

1.3 The ranking system is based on the principles of transparency, comparability of results, academic freedom, and the prohibition of discrimination against FTS based on the profile of their professional activities.

1.4 When forming the ranking, the results of professional activities carried out by faculty within the framework of educational, scientific, creative, pedagogical, and other activities of the Academy are taken into account, provided that they are duly documented. Results unrelated to the Academy’s activities are not included in the ranking.

1.5 Participation of a faculty member in the ranking constitutes a form of presenting professional achievements and may be considered as part of the aggregate materials during competitive procedures in accordance with the Academy’s current internal regulatory acts.

1.6 The ranking includes only faculty members employed on a full-time basis at the Academy. Deans, department heads, managers and staff of administrative units, doctoral students, part-time external instructors, and hourly-paid faculty are not included in the ranking.

1.7 FTS members newly hired during the reporting period of the ranking do not participate in the ranking for the current year and are included starting from the next reporting period.

1.8 In forming departmental and faculty rankings, only the results of faculty

	<u>Regulations</u> Type of regulatory document	Page 5-26

members participating in the ranking on the basis of their primary place of employment are considered. Departmental and faculty rankings are used for analytical assessment of the performance of the respective structural units, as well as for evaluating the managerial effectiveness of department heads and faculty deans.

1.9 The effectiveness of department heads and faculty deans is determined based on the activity and participation indicators of the FTS of the respective departments (faculties) in the ranking, as well as on the results of comparative analysis of the aggregate ranking outcomes of the structural units.

1.10 The procedure for evaluating the effectiveness of department heads and faculty deans is established by a separate regulatory document of the Academy.

1.11 When forming ranking indicators, requirements of national and international accreditation, as well as indicators used in the system for evaluating the performance of higher education institutions in the Republic of Kazakhstan, are taken into account.

1.12 The list of ranking indicators and their scoring is approved by the Academic Council of the Academy and is applied throughout the reporting academic year without changes.

## **2. Requirements for the Ranking System**

2.1 The main requirements for the ranking system are as follows:

- 1) Use of an approved methodology ensuring the creation of an electronic ranking database and access to results through the Academy's information system;
- 2) Presence of a justified and sufficient set of indicators that objectively reflect the various types of a faculty member's professional activities;
- 3) Ability to update ranking indicators in the prescribed manner;
- 4) Orientation of the ranking towards stimulating professional growth of faculty members through moral and material incentives;
- 5) Identification of responsible structural units and officials for collecting, verifying, and processing ranking data;
- 6) Mandatory annual review of the system of indicators and their weights at a meeting of the Academic Council of the Academy.

2.2 The ranking is formed based on the results of the calendar year. The timing for forming and summarizing the ranking results is approved by the Rector's order of the Academy.

2.3 Ranking indicators and the procedure for their application must ensure comparability of faculty performance results while taking into account the specific characteristics of departments and educational programs.

2.4 Only duly documented results of faculty professional activities are considered in

	REPUBLICAN STATE INSTITUTION TEMIRBEK ZHURGENOV KAZAKH NATIONAL ACADEMY OF ARTS OF THE MINISTRY OF CULTURE AND INFORMATION OF THE REPUBLIC OF KAZAKHSTAN	П 017-1.64-2026 29.01.2026 y.

the ranking calculation. Results of student surveys and other forms of feedback may be used for analytical and monitoring purposes but are not included in the calculation of ranking indicators.

2.5 Ranking results are used for analytical, motivational, and managerial purposes, including assessing the performance of structural units and their heads, and do not replace procedures for certification or evaluation of suitability for the held position.

### 3. Methodology for Calculating Faculty Rankings

3.1 A faculty member's ranking is formed based on a set of indicators reflecting their qualification level and the results of professional activities in educational, scientific, creative, organizational-methodological, and other spheres of the Academy's activities.

3.2 To form the ranking, a faculty member submits information on the results of their activities in the prescribed format through the Academy's information system.

3.3 The score for each indicator is determined according to an approved scale. Only results of educational-methodological, organizational-methodological, scientific, and creative activities affiliated with the Academy and supported by official documents are included in the calculation.

3.4 In calculating the ranking, only professional activities achieved during the reporting period are considered. Academic degrees, academic titles, as well as state and honorary awards conferred before the reporting period are not included in the ranking calculation, as separate payments and forms of incentive are provided for their attainment.

3.5 The list of ranking indicators and the scoring scale are approved by the decision of the Academic Council of the Academy before the start of the reporting period.

3.6 Ranking materials and results of student surveys are compiled and stored in the faculty member's electronic portfolio in the archive of the Academy's information system.

### 4. Procedure for collecting and processing information on the ranking of faculty and teaching staff.

4.1 A faculty member submits information on ranking indicators in electronic form through the Academy's information system, confirming the accuracy of the submitted data.

4.2 Ranking materials and supporting documents are uploaded by the faculty member in the prescribed format into the Academy's information system.

4.3 Ranking indicators are counted only if supported by documents corresponding to the reporting period of the ranking and prepared in accordance with established requirements. Indicators that are not documented, do not relate to the reporting

	REPUBLICAN STATE INSTITUTION TEMIRBEK ZHURGENOV KAZAKH NATIONAL ACADEMY OF ARTS OF THE MINISTRY OF CULTURE AND INFORMATION OF THE REPUBLIC OF KAZAKHSTAN	П 017-1.64-2026 29.01.2026 y.
	<u>Regulations</u> Type of regulatory document	Page 7-26

period, or are prepared in violation of the requirements are not included in the ranking calculation.

4.4 The deadlines for submitting ranking materials are established by the Rector's order of the Academy and must be at least one month. The Academy ensures that faculty members are informed of the start of the ranking period and that the information system is technically available throughout the established period.

4.5 After the established deadline, changes to ranking materials are permitted only by decision of the commission in cases of technical failures or documented exceptional circumstances.

4.6 Verification of the accuracy and validity of the submitted ranking materials is carried out by the commission within the established timeframe, with results recorded in the Academy's information system.

4.7 Ranking points are calculated automatically based on confirmed data with technical support provided by the Academy's authorized unit.

4.8 Final ranking data are compiled in electronic form and submitted to the Academy's management in the prescribed manner.

4.9 A faculty member is responsible for the accuracy and relevance of the submitted ranking materials within the reporting period.

## **5. Procedure for summarizing the results of the faculty and teaching staff ranking**

5.1 To organize and summarize the ranking results, a commission is established by the Rector's order of the Academy. The composition of the commission and its authority are approved by the Rector's order.

5.2 The commission verifies the compliance of submitted materials with the established ranking criteria, checks the authenticity of supporting documents, confirms data in the Academy's information system, and compiles the final ranking results.

5.3 Interaction between ranking participants and the commission is carried out in an official manner through established communication channels. Decisions regarding violations of the ranking procedure are made by the commission based on documented evidence.

5.4 In case of disagreement with the ranking results, a faculty member has the right to submit an appeal within the prescribed period. An appeal commission is established to review such appeals, consisting of representatives of the administrative staff and faculty members not involved in the work of the main commission.

5.5 Faculty members are responsible for the accuracy of the submitted ranking materials. The procedure for accounting for identified violations and potential

	REPUBLICAN STATE INSTITUTION TEMIRBEK ZHURGENOV KAZAKH NATIONAL ACADEMY OF ARTS OF THE MINISTRY OF CULTURE AND INFORMATION OF THE REPUBLIC OF KAZAKHSTAN	П 017-1.64-2026 29.01.2026 y.
	<u>Regulations</u> Type of regulatory document	Page 8-26

consequences is determined by the commission in accordance with the Academy's current internal regulations.

5.6 The appeal commission reviews faculty appeals within the established timeframe and issues written decisions specifying the reasons for the decision.

5.7 The results of appeal reviews are communicated to faculty members through the Academy's information system.

## **6. Procedure for documenting the results of the ranking.**

6.1 Based on the ranking, lists of faculty members are compiled, ranked in descending order of their ranking points, broken down by departments and faculties.

6.2 Adjustment of ranking indicators is permitted based on documented information upon a motivated submission from the department, with the adopted decision recorded in the prescribed manner.

6.3 The final ranking results and recommendations for faculty incentives are submitted to the Rector of the Academy for review and approval. Incentive payments based on the ranking are made according to the principle of proportional distribution, taking into account the ranking results of faculty members who participated in the ranking, in accordance with a separate internal regulatory document of the Academy.

6.4 The final FTS ranking results, including breakdowns by departments and faculties, are presented at meetings of the Academic and Educational-Methodological Councils of the Academy in the prescribed manner.

6.5 Ranking results are used for analytical assessment of faculty performance and for forming recommendations to stimulate professional growth.

6.6 Ranking results do not constitute the sole basis for applying disciplinary measures or making decisions regarding termination of employment.

## **7. Procedure for making amendments.**

7.1 Amendments and additions to this Regulation are made in accordance with the procedure established for the development and approval of the Academy's internal regulatory acts.

7.2 Amendments and additions are approved by the decision of the Academic Council of the Academy and come into effect from the date of approval or another date specified in the decision.

7.3 Accounting, storage, and archiving of editions of this Regulation are carried out by the authorized structural unit of the Academy in the prescribed manner.

	REPUBLICAN STATE INSTITUTION TEMIRBEK ZHURGENOV KAZAKH NATIONAL ACADEMY OF ARTS OF THE MINISTRY OF CULTURE AND INFORMATION OF THE REPUBLIC OF KAZAKHSTAN	П 017-1.64-2026 29.01.2026 y.
	<u>Regulations</u> Type of regulatory document	Page 9-26

## 8. Approval, Storage, and Distribution

8.1 Placement of the approved Regulation and any amendments on the official website of the Academy is carried out by the authorized structural unit.

8.2 The original of the approved Regulation is stored in the prescribed manner by the authorized structural unit of the Academy.

8.3 Working copies of the Regulation are kept in the Academy's structural units in accordance with the established document management requirements.

8.4 All Academy employees to whom this Regulation applies are required to familiarize themselves with its content, either by signing a hard copy or in electronic form.
